**Safe Drinking Water and Toxic Enforcement Act of 1986
better known by its original name of
Proposition 65**

Proposition 65 requires the State to publish a list of chemicals known to cause cancer or birth defects or other reproductive harm. This list, which must be updated at least once a year, has grown to include approximately 800 chemicals since it was first published in 1987..

Copper and Brass Sales is a distributor of metallic raw materials that are produced by other manufacturers. Since metals or their alloys are made to the alloys ASTM/AMS specification that are defined by our customers, the customer is the one that ensures that the alloy and their ASTM/AMS specification that they are requesting from Copper and Brass Sales meets all customer and governmental performance and regulatory requirements.

As a courtesy to our customers, we have included the most recent "List" for substances identified by Prop 65

List: http://oehha.ca.gov/prop65/prop65_list/Newlist.html

Please refer to the Material Test Report that accompanies all shipments to verify chemical content and compliance.

If you have any questions or concerns regarding any of this information, please feel free to contact me.

Sincerely,

A handwritten signature in black ink that reads "Charles J. Biegel".
