Sapa Profiles Mill Test Report Issue

ThyssenKrupp Materials Copper and Brass Sales Division received a disclosure notice that Sapa Profiles Inc, 7320 NE 55th Ave Portland, Or. 97211, may have shipped material to Copper and Brass Sales facility for processing with possible altered Material Test Reports. Specifically, certain test results for mechanical properties – ultimate tensile strength, yield strength, and elongation may have been reported inaccurately. The timeframe in which this practice occurred was from 1995 to June 26, 2015. ThyssenKrupp Materials' Copper and Brass Division has taken the necessary actions to remove all suspect material from our supply chain, and is committed to providing our customers with the highest level of service and products that meet all requirements.

We encourage you to contact Sapa directly and take whatever measures you deem necessary to assess the impact of this information to your organization. Sapa hotline number is 503-802-3080.

Sincerely,
Tomas Sanchez
Sr. Director of Quality
